

European Environmental Issues Assignment

Directions: Choose an assignment from one environmental issue to complete.

Acid Rain	Air Pollution	Chernobyl
Create a poster to raise awareness about the destruction of statues, monuments, and buildings caused by acid rain.	Design a t-shirt that can be sold to raise awareness of this issue. Include a slogan and graphic. You must also include a letter to a company asking them to sell your shirts. This letter must include causes, effects and possible solutions.	Write a day diary entry from the perspective of a farmer who was affected by the Chernobyl incident or a child that was sitting in school at Chernobyl when it occurred.
Imagine you are a fish in a polluted European River. Write a letter to those who are killing you. What would you want them to know about what they are doing to you? How can they help you?	Create a short story warning of the dangers of air pollution. Address the causes, effects and possible solutions in your story.	Create a song to use in a commercial that informs people of this environmental issue.
Create an acrostic using ACID RAIN .	Create a Wordle about air pollution to show causes/effects/solutions.	Create a brochure to inform people about the Chernobyl disaster.

Criteria	Points Possible	Points Awarded
2 causes (20 points) 2 effects (20 points) 2 possible solutions (20 points) 1 possible solution of your own (20 points) Following the project guidelines (20 points)	100 Points
